(3) Main reason for business divestiture

KRS was established in 1966 upon the reorganization making the Company's warehouse division to its newly incorporated subsidiary and thereafter it has contributed to the Kewpie Group's progressive business development through its highly qualified and competitive food logistics services.
In these years, amidst dramatic changes in food products and logistics business environment, the Company and KRS have discussed and examined their future business developments from the perspective of sustained growth of both companies.
As a result, KRS concluded that its corporate value would be enhanced by dissolving the parentsubsidiary relationship with the Company, so that KRS may be able to speed up its decision-making and independent judgment on strategic investments, and reinforce its comprehensive food logistics operations in the domestic market and aggressively expand its businesses in overseas markets promoting more innovative growth strategies than ever.
On the other hand, the Company has determined that its corporate value would be enhanced for the future towards "Our Ideal"(Note) through further concentration of management resources in the domestic and overseas food businesses.
Taking the above into account, in spite of the sale of shares, the Company and KRS will keep sharing a common idea of highly qualified food distribution system that covers from manufacturing to delivery of products, and KRS will bear responsibility for the Kewpie Group's logistics duties.
The Company and KRS will continue a strong partnership in the food manufacturing and logistics operations and work together for sustained growth in corporate value for both companies.
(Note) We aim to be a group contributing to the food culture and health of the world through "great taste, empathy, and uniqueness".
(4) Date of business divestiture

2. Outline of the accounting treatment implemented
(1) Amount of gain or loss on the sale of shares Gain on sales of shares of subsidiaries and associates $\quad ¥ 289$ million
(2) Appropriate book values and major breakdown of the assets and liabilities related to the business transferred

| Current assets | $¥ 32,347$ million |
| :--- | :--- |

|  |  |
| Current liabilities | $¥ 32,314$ million |

| Total liabilities | $¥ 61,667$ million |

(3) Accounting treatments

The difference between the book value of the sold shares in the consolidated accounts of KRS Group and the sale price of the share sale was recorded as losses on sales of shares of subsidiaries and associates. On the other hand, a gain was realized as a result of this share sale, in connection with "unrealized gains on land sold to KRS by the Company and its consolidated subsidiaries" which had been recognized in prior fiscal years. This gain was accounted for as an adjustment to loss (gain) on sales of shares of subsidiaries and associates. As a consequence, a gain on sales of shares of subsidiaries and associates was recorded as extraordinary gains.
