Kewpie Group Named on CDP Water Security A List for the First Time, the Highest Rating

Tokyo, Japan (December 23, 2025)—Kewpie Corporation (“Kewpie”) has been selected for the first time for the “A-List”, the highest rating in the field of “Water Security”, by CDP, an international non-profit organization that operates an environmental disclosure system. This selection recognizes the company’s environmental targets and its initiatives toward achieving them.

The Kewpie Group aims to resolve social issues and achieve sustainable growth, inheriting the spirit of founder, Toichiro Nakashima: “Contributing to society through healthier dietary lifestyles”. In the social and environmental fields, under the Kewpie Group Basic Policy on Sustainability, the Group has identified priority issues with reference to the United Nations Sustainable Development Goals (SDGs) and is promoting initiatives as a united group.

Regarding the sustainable use of water resources, the Kewpie Group has set a goal to reduce water usage (per unit of production) by 10% or more by FY2030 (compared to FY2020). In FY2024, the Group achieved a 7.8% reduction through initiatives at its production bases. Furthermore, the Group identifies bases with high water risks and prepares for business continuity.

The Kewpie Group will continue to carry out environmental conservation activities unique to the Group toward the creation of corporate value and the realization of a sustainable society.

*1. CDP is an international non-profit organization headquartered in the UK that promotes environmental disclosure by companies and municipalities.

*2. Evaluation is conducted on an 8-point scale (A, A-, B, B-, C, C-, D, D-) across three fields, climate change, water security, and forests.
